How Do You Search?

The libraries are working to design a new interface for searching and accessing library and other scholarly resources. We are holding interviews in May to research and explore the variety of ways Hopkins students and scholars work with information, literature and data.

Everyone works differently. Help build a library search interface that works the way you do.

It's the End of the HUT as We Know It...

What About 24/7 Study Space?

Say farewell to the HUT before May 15, when it closes for two years during the Gilman renovation. There's no need to mourn 24-hour study space: MSEL will be open 24 hours a day, 7 days a week. Q- and M-Level will begin 24/7 access September 8; we will expand to A-D-Levels in October. MSEL will keep regular (non-24/7) hours for holidays, intersessions and breaks. Watch for detailed schedules as fall approaches! Thanks to Jae Kim for the question.
